

APPEAL AGAINST ASSESSMENT RESULT

Before requesting a reassessment of your slide(s) ensure that you have undertaken the following steps:

1. Staining has been reviewed carefully in conjunction with your report;
2. Assessors' comments, where present have been considered;
3. Images of optimal staining in the Assessment Run Report have been reviewed.

If, after undertaking the above you still wish to appeal against the original assessment result:

4. Complete this form fully;
5. Email one copy to info@ukneqasiccish.org;
6. Place a printed copy in the package with your slide(s);
7. Send the slide(s) and completed form to the address shown at the top of this form.

You can only appeal against the result from the most recently completed Assessment Run.

At reassessment, your submissions score(s) may be reduced, remain unchanged or be increased.

The Scheme takes steps to avoid the possibility of discriminatory action resulting from appeals.
